WORK EXPERIENCE

10/2021 - Present

iOS Engineer, Lunchbox Food Tech, USA

Responsibilities:

- [Lunchbox](#) is a food-tech company in New York addressing the challenge restaurants grapple with: how to process and fulfill orders coming from multiple sale channels. I am an iOS Engineer in a team responsible for building the ios apps of the company's clients.
- I onboard new clients onto the Lunchbox ios codebase by designing their apps based on figma product designs, integrating payment systems, and setting up delivery processes.
- I create new features using Swift + SwiftUI. Keep up to date on the latest SDK Changes
- I debug platform features, automation tools and app configurations
- I am performing as a Lead Developer in the iOS Delivery Team.
- I train new / Junior Developers, jump on 1:1s whenever necessary to unblock them.

Technologies and Tools: Swift, SwiftUI, Combine, UIKit, CI/CD, iOS-SDKs, SPM, CocoaPods

01/2021 – 10/2021

Software Engineer, Workpay, Kenya

Responsibilities:

- I Worked on the frontend of a HR Payroll System
- I Built the Company website / landing page
- I Worked on the backend side projects to create API REST endpoints

Technologies and Tools: javascript, python, django, reactjs

08/2019 – 05/2020

iOS Engineer, Litemore LTD, Kenya

Responsibilities:

- I worked as an iOS Developer on an IOS Application called [Dr Lugha](#), an app used to learn African languages ie kiswahili, kikuyu, somali

- I was frontend Engineer for Zeraki Analytics, a School Management System bridges the gap between parents, teachers, and students in terms of exams management using angular, html and css.

Technologies and Tools: Swift, Alamofire, UIKit, CI/CD iOS-SDKs, cocoapods, angular, html, CSS

EDUCATION

2014 - 2018

Bachelor Degree of Science in Mathematics and Computer Science, Jomo Kenyatta University of Agriculture and Technology
